RIVA
CANTU'

DESIGN & RENOVATION

we are
RIVA CANTÙ

Riva Cantù was founded in 1943 by my grandfather Giovanni Riva who revolutionized the production of iron and brass beds.

63 years later I had the far-sighted vision to transform the company into what it is today, a global service contractor. Riva Cantù's head office is based in the center of Brianza, an area internationally recognized for its innovative furniture manufacturing and avant-garde design.
